

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Regarding claims **1, 17, and 18**, no prior art could be located that teaches or fairly suggests the frequency of the basic operating clock being reduced when a particular one of a plurality of modes is selected in combination with the rest of the limitations of the claim.

Regarding claims 2 and 4-16, these claims depend on claim 1 and therefore are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
